PROFILE SUMMARY

Dedicated and results-driven Full Stack Developer with a passion for crafting innovative web solutions. Seeking a challenging role to leverage my expertise in Front-End and Back-End technologies, collaborative spirit, and problem-solving skills to contribute to a dynamic team in delivering exceptional web applications that drive user engagement and business success. Excited to embrace new challenges, continuously expand my skill set, and positively impact projects in a fast-paced and forward-thinking organization

PROJECTS

Job Portal (<https://github.com/charansai2427/Techie-User>)

- Full-Stack MERN application enabling users to search for and apply to job postings.
- Developed robust job search features, filtering options, and personalized recommendations.
- Implemented user authentication and authorization with JWT.
- Used React Router for dynamic routing and seamless navigation.

Pexels Clone (<https://github.com/charansai2427/Pexel-Clone>)

- React.js based image gallery app mimicking the functionality of Pexels.
- Designed and implemented a masonry-style layout using CSS Grid for efficient image display.
- Integrated a search bar with real-time filtering capabilities.
- Optimized image loading to improve performance and user experience.

Restaurant Clone (<https://github.com/charansai2427/Restaurant>)

- Designed and developed a responsive food website using HTML, CSS, and JavaScript.
- Utilized JavaScript to create dynamic and interactive elements such as navigation menus, dropdowns, and sliders.
- Integrated AJAX to enable seamless data retrieval and real-time updates, enhancing the efficiency of features like cart management.

CERTIFICATION

- 2023 January to 2023 July **Coding School - Jr. Software Engineer**
- Full Stack Development (MERN)

PROFESSIONAL EXPERIENCE

- Teman Ed -Tech |Software Developer Intern | **September 2023 to February 2024**
- Developed Full-Stack web applications using MERN stack. Implemented responsive UI/UX designs to ensure seamless user interaction. Optimized application performance by conducting efficient database queries and server optimizations. Achieved improvement in through optimization efforts. Integrated APIs to enhance functionality.
